

Barista Tools

**20 years ago** when tampers and knock boxes were curious products understood by few. Over the years we have grown into a company that provides practical and innovative tools and accessories for coffee houses around the world.

In our desire to make smallwares more durable for the commercial market, we have developed the Rattleware® line of coffee accessories. Essential coffee smallwares are at the heart of the Rattleware line: knock boxes, tampers, pitchers, thermometers and Snap Bins<sup>TM</sup>.

**You can easily identify Rattleware products** in this catalog by the small **rw** following the product name. This year we are very excited to become the global distributor for the Bonavita® brand of kettles, coffeemakers and manual pour-over accessories. **Bonavita brings innovation to coffee and tea preparation.** You can view all of the Bonavita products on pages 16-18.

Whether you are new to the coffee business or an experienced barista or cafe owner, we are here to help you improve your cafe's efficiency, organization and product quality.... all combining to make your establishment a place that customers will return to again and again. Please contact our **Customer Service**Representatives at 800.782.6671 or email us at info@espressosupply.com. You can always view our product selection, with any updates since this catalog printing, at espressosupply.com.

#### [H] Coffee Catcha™

The Coffee Catcha acts as a funnel to stop the ground coffee from falling over the edge of the portafilter. It is then used to scrape off the excess grounds.

The Coffee Catcha saves money by catching the grounds that would otherwise fall to the counter. **34010** 79.00

Scottie Callaghan's Latte Art DVD This DVD is designed to help any beginner or 'barista in the making' master latte art. Scottie has succeeded in making the DVD comprehensive, relaxed and informative.

41201 29.95

#### [I] Scottie Callaghan's Dosing Tools

Scottie Callaghan (Australian Barista Champion 2010, 3rd place at World Barista Championship 2010 & LatteArt World Champion) developed the Dosing Tools for baristas who have the need to adjust their dose consistently across different machines, baskets, portafilters and coffee types, helping to minimize variables in producing great espresso.

#### **Bonavita 8 cup Coffeemakers**

Brewing time and temperature are the two most important features of a coffeemaker. Both of the Bonavita coffeemakers brew at the ideal temperature (205° F); are precision timed for the brewing cycle; and have an optimal-flow shower system that saturates the grinds evenly and consistently, resulting in an exceptional coffee experience. Coffeemakers are available with either a glass carafe or a glass lined thermal carafe. Features:

- 1400 Watt heater raises water to ideal temperature (205°F / 96°C)
- Engineered for precise water and coffee grounds contact time
- Shower head designed for complete coffee grounds saturation and optimal extraction
- Removable filter basket
- Easy to fill rear mounted hinged water reservoir
- Brews 8 cups (5 oz. cups) in 5-6 minutes.
- Total capacity of 40 ounces
- SCAA certified coffee maker

#### **HARIO**

#### **Hario Drippers**

The defined ridges are spiraled to the top of the cone allowing the air to escape and the grounds to fully expand for even brewing. The steep cone adds depth to grounds layer, extracting optimum flavor. The large hole at the bottom makes smooth extraction possible, changing taste with different speeds of water pouring.

[A] Hario V60 White Ceramic Coffee **Dripper 29101** 25.05

[B] Hario V60 Clear Plastic Coffee Dripper **29103** 7.55

[C] Hario V60 Glass Coffee Dripper **Black Handle 29115** 25.05

To use a pour-over brewer most effectively, you have to dispense water right where you want it. The spout of the Hario Kettle allows you to effectively control your pour. This kettle can be used on the stove top. Has a stainless steel finish and a great shape. 1.2 ltr/40 oz

10501 66.80

While standard cone filters have a flat bottom, the bottom of the Hario filter comes to a point, which fits with the overall design of the dripper and extracts beautifully. Filter allows for more of the natural oils to pass through without allowing the sediments through, producing a clean, full bodied cup.

Hario Paper Filters, natural pkg 100 **29200** 6.70

Hario Paper Filters, white pkg 100 **29202** 6.25

Durable and compact, this coffee mill provides perfect grinding control for your chosen brewing method. Ceramic conical burrs don't produce the heat that can adversely affect your coffee's essential oils, and have no metal odor and will never rust. Burrs easily adjust to produce a range of grind sizes, from superfine espresso to coarse for French press brewing. Mill bottom twists off for easy access to ground coffee. **29116** 50.10

Hario V60 Range Server 600ml Clear Heat-proof Hario glass server designed to accompany the Hario V60 Coffee Drippers.

#### **COLD BREWED COFFEE MAKER**

#### [A] Toddy

**Commercial Cold Brewing System** 

The Toddy Commercial system uses its patented cold-water extraction process to produce cold-brewed liquid coffee and tea extract that offers a full-bodied, aromatic flavor profile that translates into a bold, super-smooth taste. Brew 5 lbs of your favorite coffee and you should yield approximately 2 ½ gallons of extract. The Toddy Commercial Model is BPA free and comes with one strainer and 10 filters.
